PCEA WENDANI ACADEMY

School Management System with Integrated Payment Processing

Document Version:	1.0
Date:	November 18, 2025
Prepared By:	Development Team
Prepared For:	PCEA Wendani Academy
Document Status:	**DRAFT**

INTRODUCTION

1.1 Purpose

This Software Requirements Specification (SRS) document provides a complete description of the School Management System for PCEA Wendani Academy. It details the functional and non-functional requirements for developers, project managers, testers, and stakeholders.

Target Audience:

Development team

School administration

Project stakeholders

Quality assurance team

System maintenance team

1.2 Scope

Product Name: PCEA Wendani Academy School Management System (PWASMS)

Product Description: A comprehensive web-based school management system that automates and streamlines all school operations including student management, academic processes, fee collection, staff management, and parent communication with integrated payment processing through Cooperative Bank and Equity Bank.

Key Benefits:

Automated fee collection and payment tracking

Reduced administrative workload by 60%

Real-time access to student performance data

Improved parent-school communication

Secure online payment processing

Comprehensive reporting and analytics Paperless

operations

Goals:

Digitize all school operations

Enable online fee payment through major Kenyan banks

Provide real-time information access to stakeholders

Improve operational efficiency

Ensure data security and compliance

1.0 Definitions, Acronyms, and Abbreviations

Term	Definition
SRS	Software Requirements Specification
API	Application Programming Interface
CBC	Competency-Based Curriculum

SMS	Short Message Service
RBAC	Role-Based Access Control
M-PESA	Mobile money service by Safaricom
SSL/TLS	Secure Sockets Layer/Transport Layer Security
HTTPS	Hypertext Transfer Protocol Secure
PCI-DSS	Payment Card Industry Data Security Standard
KES	Kenya Shillings
KNEC	Kenya National Examinations Council
CBK	Central Bank of Kenya
STK Push	SIM Toolkit Push (M-PESA payment prompt)
IPN	Instant Payment Notification
OAuth	Open Authorization
CRUD	Create, Read, Update, Delete
UAT	User Acceptance Testing

2. OVERALL DESCRIPTION

2.1 Product Perspective

PWASMS is a new, self-contained web-based system designed specifically for PCEA Wendani Academy. It will replace manual paper-based processes and integrate with external systems, including:

I. Co-operative Bank payment gateway
II. Equity Bank payment gateway
III. SMS gateway services
IV. Email service providers

V. Cloud hosting infrastructure

FR-FM-006	Balance tracking and outstanding fees report	High	Pending
FR-FM-007	Discount and scholarship management	Medium	Pending

2.5.4 Payment Integration Module

Requirement ID	Requirement Description	Priority	Status

FR-PI-001	Co-operative Bank API integration	High	Pending
FR-PI-002	Equity Bank API integration	High	Pending
FR-PI-003	Real-time payment notification	High	Pending
FR-PI-004	Automatic payment reconciliation	High	Pending
FR-PI-005	Payment gateway security (SSL, PCI compliance)	High	Pending
FR-PI-006	Payment confirmation SMS/Email	High	Pending

3. BANK INTEGRATION SPECIFICATIONS

3.1 Co-operative Bank Integration

Parameter	Specification
API Type	IPN
Authentication	
Payment Methods	Bank transfer, M-PESA (via Co-op), Co-op kwa jirani,e.t.c
Webhook Support	Real-time payment notifications

3.2 Equity Bank Integration

Parameter	Specification
API Type	Equity Bank API
Authentication	OAuth 2.0 / API Key
Payment Methods	Bank transfer, Equitel, M-PESA,agent,over the counter
Webhook Support	Real-time payment notifications

4. NON-FUNCTIONAL REQUIREMENTS

4.1 Performance Requirements

Requirement ID	Description	Target Metric	Priority
NFR-PERF-001	Page load time for standard operations	< 2 seconds	High
NFR-PERF-002	Database query response time	< 500ms	High
NFR-PERF-003	Concurrent users supported	500+ simultaneous users	High
NFR-PERF-004	Payment processing response	< 3 seconds	High
NFR-PERF-005	Report generation (standard)	< 5 seconds	Medium

4.2 Security Requirements

Requirement ID	Description	Priority
NFR-SEC-001	PCI-DSS compliance for payment data	High
NFR-SEC-002	Data encryption at rest and in transit (AES-256, TLS 1.2+)	High
NFR-SEC-003	Role-based access control (RBAC)	High
NFR-SEC-004	Audit trail for all transactions	High
NFR-SEC-005	Password policies (min 8 chars, complexity requirements)	High
NFR-SEC-006	Session timeout (30 minutes inactivity)	High
NFR-SEC-007	Account lockout after 5 failed login attempts	High

NFR-SEC-008	GDPR/Data Protection Act compliance	High

5. RISK ASSESSMENT

5.1 Technical Risks

Risk	Probability	Impact	Mitigation Strategy
Bank API integration delays	Medium	High	Start integration early,
Server downtime during peak	Low	High	Implement load balancing, auto-scaling
Data loss due to failure	Low	Critical	Daily backups,
Security breach/data theft	Low	Critical	Robust security measures, regular audits
User resistance to adoption	Medium	High	Comprehensive training, change management
Third-party service unavailability	Medium	Medium	Backup providers, queue failed requests

6. ACCEPTANCE CRITERIA

The system will be considered acceptable when the following criteria are met:

6.1 Functional Completeness

Criteria	Status
All high-priority requirements implemented	☐
All modules pass integration testing	☐
All user roles can perform assigned functions	☐
All payment gateways working correctly	☐

6.2 Performance

Criteria	Status
Page load times < 2 seconds	☐
System supports concurrent users	☐
Reports generate within specified times	☐
No memory leaks detected	☐

6.3 Security

Criteria	Status
Security audit passed	☐
All critical vulnerabilities fixed	☐
PCI-DSS compliance verified	☐
Data encryption working	☐

6.4 Usability

Criteria	Status
UAT sign-off received	☐

User satisfaction > 4.0/5.0	☐
Training completed successfully	☐
User documentation approved	☐

SAMPLE TEST CASES

E.1 Student Registration Test

Test ID	Test Description	Expected Result
TC-SR-001	Register new student with valid data	Student registered successfully, admission number generated
TC-SR-002	Register student with duplicate admission number	Error message displayed, registration rejected
TC-SR-003	Register student with missing required fields	Validation errors shown, form not submitted

E.2 Payment Processing Test

Test ID	Test Description	Expected Result
TC-PM-001	Process M-PESA payment successfully	Payment successful, receipt generated and sent
TC-PM-002	Handle failed payment	Error message shown, payment status updated to failed
TC-PM-003	Verify payment callback	Payment verified, receipt sent to parent
TC-PM-004	Process duplicate payment	System detects duplicate, prevents double processing

E.3 Academic Management Test

Test ID	Test Description	Expected Result
TC-AM-001	Enter exam marks for class	Marks saved successfully, grades calculated
TC-AM-002	Generate student report card	PDF report card with all grades and comments generated
TC-AM-003	Create class timetable without conflicts	Timetable created successfully
TC-AM-004	Detect timetable conflicts	System identifies and prevents scheduling conflicts

Bugs and Enhancements

1. Dashboard- Rename total bal B/F
2. Rename the cash payment method to Manual Entry
3. Add payment Sources field

   Coop Bank

   Equity Bank
4. Receipting and Printing of the receipts- **Printer Epson LX350-the A4 paper produces two receipts.**
5. Enable generating an invoice either per learner or per class (invoice generation is available per grade)
6. The receipt should have date and time of printing and indicate who printed (the system user)
7. add footer - **PAYMENT TERMS / MODE OF PAYMENT**

   1. All the above payments should be received on or before the first day of the term by way of Banker's cheque or direct deposit to the school's bank account.

   2. Cash payments and Personal cheques are not acceptable

   3. School bank accounts

   a) EQUITY BANK

   Account Name: P.C.E.A Wendani Academy

   Account No: 1130280029105

   b) CO-OPERATIVE BANK

   ACC NO: 80029#admission number

   d) PAYBILL:

   B/S NO: 400222

   ACC NO: 393939#admission number
8. Remove due date and status from the receipt
9. Enable editing of invoice , where you can add an item e.g trip since not every learner will (we discussed this, transport routes to be created with respective amount or 0)
   (trip (academic trips) and transport are different

10. When recording a payment ,add a search field for students name or admissionpay for it.
11. Invoice report

The items are picked from the invoices generated
